

ENTRANCE SYSTEMS

The entrance to your house is more than just a door; it's the focal point of your home. We take this to heart at Polaris®. That is why you'll find beauty, quality, and energy-efficiency in the door system we'll make especially for you. **Welcome to Polaris.**

SURROUNDED BY QUALITY

We build entry door systems using carefully selected components and quality workmanship.

BUILT FOR PERFORMANCE

Our entrance systems are built to perform in all climates, providing long-term performance for your home.

KEEPING YOUR FAMILY SAFE

We build exterior doors with security at the forefront to ensure that what's most important to you is protected in your home.

SELECTION FOR EVERY STYLE

More styles. More colors. More design options. Our wide selection allows you to create an entry that reflects your design personality and home's architectural style.

TABLE OF CONTENTS

Sometimes the smallest details leave the most lasting impressions.

Let us help you create your dream entryway leaving no detail forgotten. Create an entry that accentuates your personal style.

NEW PRODUCTS

First impressions matter. Accentuate your entryway with new products that focus on the details, from trending glass to door styles and hardware that will create a distinctive look. Enhance your door's performance with a multi-point locking system that works with smart hardware. These innovative products allow you to create an entry that improves your door's performance while reflecting your design personality.

MISTIFY WHITE GLASS STYLE

Mistify White is the playful combination of pattern and texture. The white drizzle pattern is fused to softly textured glass, resulting in a mesmerizing statement piece for any modern entryway and privacy for the home.

The contemporary doorglass design is offered with SDL for a clean, divided lite look or as a single doorlight.

MODERN WIDE SIMULATED DIVIDED LITES

Wide simulated divided lites elevate the beauty of an entryway while letting in natural light. The 3.5" wide bars are available in 3-lite and 4-lite horizontal patterns to make a statement and add dimension to any entryway.

CATALINA GLASS STYLE

Reminiscent of handcrafted metal window grilles, Catalina brings Old World artistry to your home. Graceful bronze vein wrought iron scroll work accents a textured translucent glass surface for a high level of privacy and even higher level of Old World charm.

129

PANOLOCK®+ MULTI-POINT LOCKING SYSTEM

A one-of-a-kind multi-point lock that works with off-the-shelf hardware, supports a forgiving installation, and offers lasting performance, all at an affordable price point. Whether knob, lever, or thumbpress, PanoLock+ is compatible with most hardware.

131

132

ENCODE™ WIFI DEADBOLT

Introduce smart security into your home with the Schlage® Encode™ Smart WiFi Deadbolt. It's total control and peace of mind at your fingertips.

BALDWIN® HARDWARE

Create a distinctive look in your home's entryway with Baldwin® hardware. The designs are available in three finishes to personalize your look.

134

DURA-PLAST™ FRAME

A composite poly-fiber frame system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot, and insect resistant. This unique formulation means that Dura-Plast™ frames will not absorb or wick moisture and will never warp, splinter, or rot.

CURB APPEAL

Not only will a new entry door increase your curb appeal, but it can also increase your home's value. Entry door replacement consistently ranks among the most valuable remodeling projects in *Remodeling* magazine's Cost vs. Value report. According to the 2023 Cost vs. Value Report (www.costvsvalue.com), homeowners will recoup an average of 100.9% of their steel entry door costs and 50.4% of their fiberglass entry door costs.‡

BEFORE

AFTER

DESIGN YOUR ENTRY

Design your dream entryway with our easy-to-use home visualizer. Our interactive visualizer helps to bring your ideas to life in a few easy steps. Choose a sample home in the program or upload your project, then apply one of our expertly designed color and product palettes to your home. Or create your unique design with our wide selection of door styles, glass options, and finishing touches.

After completing your design, you will receive a summary of the door you created. Print the details to share with your contractor, or share your personalized door design with family and friends on social media.

TO THE NINES

SURROUNDED BY QUALITY

Quality. Performance. Security. Selection.

First-class quality and craftsmanship. We design our entrance systems with America's homeowners in mind, carefully selecting each component to provide you with years of worry-free performance. Count on us to help protect your home with durable exterior door systems.

ZEEL GLASS FRAME

- Low-profile glass frame that blends seamlessly into the door
- Innovative clip system eliminates screws and caps
- Sealant is immune to squeeze out and doesn't degrade over time
- Resists scalloping and warping in severe temperatures and direct sunlight, even when painted dark colors
- Standard on many styles in steel or Timberline Fiberglass door series†

DURA-FRAME™ JAMB

- Alaskan Yellow Cypress at the bottom of the jamb to resist rot and insects
- One-piece design, up to 12" depth, with no unsightly jamb extensions
- Limited lifetime warranty

BALL-BEARING HINGES

- Reduces door squeak and eliminates grinding dust (black powder)
- Nine available finishes: Antique Brass, Antique Nickel, Bright Brass, Bright Chrome, Colonial Bronze, Dull Chrome, Matte Black, Satin Brass, and Satin Nickel
- T-nuts are used on all wood jambs to prevent hinge screws from stripping

ONE PIECE MULLPOST

- Adds strength and ensures your entrance system is storm door ready

BUILT FOR PERFORMANCE

Quality. Performance. Security. Selection.

We believe every detail matters. The components of our exterior door system are engineered to work together, perform in all climates, and provide long-term performance for your home. Additionally, many of our styles have been certified to meet ENERGY STAR qualifications.

AUTO-ADJUSTING SILL

- Z-Articulating Cap Sill® stands up to wind and water, delivering constant protection against leaks, drafts, and insects
- No rotting, warping, or deterioration over time
- Champagne sill standard, with optional Bronze or Mill finish
- A continuous sill creates a stronger system and reduces the opportunity for air and water infiltration on sidelite units

INSULATED CORE

- Steel and fiberglass doors are fully insulated with an inner core of polyurethane foam
- Protects from heat loss or gain; five times more efficient than a wood door
- Provides superior thermal performance and greater energy efficiency
- Enhances sound proofing

ADJUSTABLE HINGE PLATE SYSTEM

- Allows the door to be easily adjusted up/down and in/out within the frame
- Adjustment allows for a tight fit against the weatherstrip and threshold
- Available in many door series and styles

ADVANCED DOOR EDGES

Our premium Timbergrain fiberglass doors have 4" of engineered lumber on both the hinge and latch edges to keep the door straight and tight against the weatherstripping.

STEEL EDGES

The steel edge on our steel doors ensure they will not rot, bow, or warp, even under extreme conditions.

KEEPING YOUR FAMILY SAFE

Quality. Performance. **Security.** Selection.

You can buy a new door just about anywhere. A door is a door – from the street they tend to look the same for the most part. **So, why buy our door?**

It's a barrier between...

your possessions and a burglar
your home and a potential garage fire
your family and harm

It's a barrier between you...

and a severe storm
and a hot summer day
and subzero temperatures

A door is much more than it looks—IT'S SECURITY. We build exterior doors with security at the forefront to ensure that what's most important to you is protected in your home.

STEEL-EDGE

SPLIT WOOD EDGE

STEEL-EDGE ADVANTAGE Grade 40 Security Rating

Our steel-edge doors receive the highest rating possible in the industry's toughest forced entry test.

A door must withstand the force beyond seven hits from a 100 pound test weight to achieve a Grade 40 rating.

FIRE RATED DOORS

All of our steel doors have the ability to be labeled for 20 or 90 minute ratings.

Select smooth fiberglass doors have the ability to be labeled for 20 minute rating.‡

IMPROVED SECURITY

The steel jamb reinforcement plate attaches behind the jamb for additional security against forced entry. It's standard on all doors with a deadbolt.

MULTI-POINT LOCKING SYSTEMS

Multi-point locks provide extra security and performance for entry doors by adding two additional locking points in addition to your deadbolt.

We're the only manufacturer with multi-point locks on Grade 40 steel doors.

WESTGUARD

SMOOTH STEEL DOOR SERIES

Tougher than ever and built for superior performance. The WestGuard door series is constructed out of durable, 20-gauge, hot-dipped galvanized steel and is ideal for commercial applications and high-traffic residential areas.

- 20-gauge steel
- Full steel-edge perimeter offers additional strength and the industry's highest security rating
- Resists cracking, splitting, warping, twisting, rotting, and corrosion
- Adjustable Hinge Plate System
- 20-gauge hinge reinforcements
- Polyurethane foam inner core provides superior insulation
- Composite lock block provides secure mounting for door hardware
- Fire rated up to 90 minutes
- Most styles available with 10" bottom rails to meet ADA requirements.
- G40 Hot-Dipped Galvanized Steel – more resistant to rust than typical, electro-galvanized doors, even in high moisture or coastal environments.
- Limited lifetime warranty

Availability based on 3/0 width. ● 6/8 height ● 7/0 height ● 8/0 height
Other panel configurations and sizes may be available.

Can be labeled for fire rating.

CAMBRIDGE

SMOOTH STEEL DOOR SERIES

Cambridge Smooth Steel doors are designed for strength, security and durability. This premium, insulated door system is constructed with a full steel-edge perimeter that offers additional strength and the industry's highest security rating.

- 22-gauge steel for increased durability; 40% thicker than bargain doors
- Full steel-edge perimeter offers additional strength and the industry's highest security rating
- Resists denting, cracking, splitting, warping, and twisting
- Adjustable Hinge Plate System
- Polyurethane foam core fills every void to protect from heat loss or gain
- Composite lock block provides secure mounting for door hardware. Won't absorb moisture or swell like wood lock blocks.
- G40 Hot-Dipped Galvanized Steel – more resistant to rust than typical, electro-galvanized doors, even in high moisture or coastal environments.
- Fire rated up to 90 minutes
- Limited lifetime warranty

NORWOOD

TEXTURED STEEL DOOR SERIES

The warmth of wood meets the strength of steel with the Norwood series. These textured steel doors are constructed with a deeply embossed Oak grain surface, providing a realistic wood appearance.

- 22-gauge steel for increased durability; 40% thicker than bargain doors
- Full steel-edge perimeter offers additional strength and the industry's highest security rating
- Resists denting, cracking, splitting, warping, and twisting
- Adjustable Hinge Plate System
- Polyurethane foam core fills every void to protect from heat loss or gain
- Composite lock block provides secure mounting for door hardware. Won't absorb moisture or swell like wood lock blocks.
- G40 Hot-Dipped Galvanized Steel – more resistant to rust than typical, electro-galvanized doors, even in high moisture or coastal environments.
- Fire rated up to 90 minutes
- Limited lifetime warranty

 Can be labeled for fire rating. # Architecturally correct graining

TIMBERLINE

FIBERGLASS DOOR SERIES

The Timberline Fiberglass door series is designed with energy and thermal performance in mind, while providing depth and dimension to your entryway. Available in smooth or woodgrain texture.

- Smooth skin, or woodgrain textured skin in Fir or Oak
- Polyurethane foam core fills every void to protect from heat loss or gain
- Fire rated up to 20 minutes (select styles and sizes)‡
- Unaffected by moisture and humidity
- Made from high-impact fiberglass reinforced skins
- 25-year limited warranty (Smooth); limited lifetime warranty (Textured)
- Full-length composite stiles and rails with HydroShield provide a 6-sided protection against water infiltration, mold, and insects
- Withstands everyday use and all surfaces are easy to clean

TIMBERGRAIN

FIBERGLASS DOOR SERIES

Timbergrain Fiberglass entrance doors offer the warmth of wood and its natural characteristics in five different species: Knotty Alder, Mahogany, Cherry, Fir, and Oak.

- Stronger dimensions and crisper shadow lines to replicate the look and texture of real wood doors
- 1/10" thick fiberglass skin, 40% thicker than bargain doors
- Adjustable Hinge Plate System
- Premium hardwood edges replicate the look of a real wood door while resisting rot and decay.
- Composite top & bottom rails won't absorb moisture and will not rot or decay like wood.
- 4" Laminated Strand Lumber (LSL) stiles provide strength and protects against thermal bowing and warping.
- Limited lifetime warranty

Can be labeled for fire rating.

Privacy Rating:

Wide openings allow motorcycles, lawn mowers, snow blowers, small equipment, and other large items to pass through without requiring an overhead or double door. The 4/0 wide door is ideal for agricultural buildings, yard barns, garage service entrances, and ADA applications.

The 4/0 wide door features a WestGuard 20-gauge smooth steel panel with the Adjustable Hinge Plate System.

Whether reminiscent of a soft linen shirt or an elegantly embroidered linen tablecloth, Linen's lightly etched glass and woven pattern complement casual or formal entryway designs. The translucent white glass and soft moiré of Linen's threads give it a high privacy level. Textured surface exposed to the inside of the home.

A photograph of a modern house at dusk. The house features a mix of materials: a dark green wall on the left, a light blue-grey wall with a grid pattern on the right, and a textured yellow wall on the far right. A white door with decorative glass panels is illuminated from within, and a light fixture above the door casts a warm glow. A window with decorative glass is visible on the green wall. The sky is a mix of purple, orange, and blue. In the foreground, there are some flowers and a small tree.

DECORATIVE GLASS COLLECTION

The beauty of handcrafted glass is that every piece is different, offering you aesthetic elements and various privacy levels. Choose from our diverse styles to accent the unique architectural style and decor of your home.

DISCOVER YOUR STYLE

Create a lasting impression. Building a new home or updating the exterior of your current home is an exciting time, and discovering your style is a great way to start the process. With endless door designs and décor options, it'll help you create a cohesive look throughout your home. The result should make you fall in love with your home whenever you pull into the driveway.

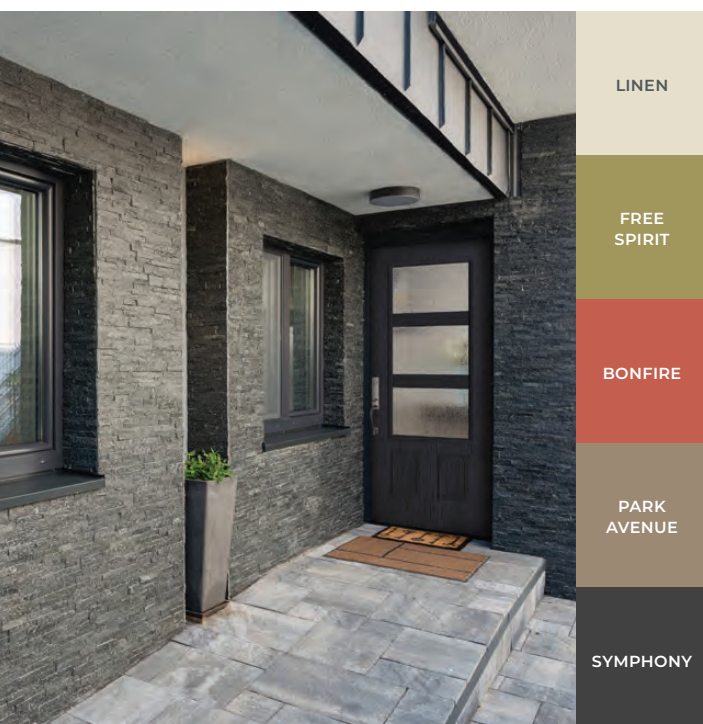

INDUSTRIAL

While industrial style takes root from renovated warehouses, factories, and other industrial spaces, the basic design concepts can be utilized in many homes with just about any structural style.

DESIGN: Feature a blend of wood and metal materials for the perfect mix of old and new.

DÉCOR: Exposed pipes, light fixtures featuring Edison bulbs, and leather furniture in warm tones all add to the overall aesthetic.

COLOR: Create a timeless, modern industrial look by choosing neutral colors found in concrete, natural wood, steel, brick, or leather.

MODERN

Less is more when it comes to modern style. Clean lines, uncluttered spaces, and open, well-defined floor plans are elements of this popular design style.

DESIGN: Large shapes and asymmetrical compositions are incorporated into this style. Achieve a bold look through simplicity and minimalism.

DÉCOR: Though neutrals are preferred, it's not uncommon for pops of color to be incorporated through doors and accent pieces.

COLOR: Neutral colors, whites, beiges, and some shades of black, are popular color choices.

MID-CENTURY MODERN

This popular design has stood the test of time due to its focus on comfort and practicality paired with thoughtful design. Mid-century modern design fits with today's more casual lifestyle with a focus on experience over things.

DESIGN: Characterized by clean lines, angular shapes, minimalistic exterior design, and oversized windows. The functional interior provides a space that is conducive to modern living.

DÉCOR: The design style often showcases color with statement pieces rather than entire rooms. Bold patterns, Danish-style furniture, and statement lighting improve the overall look.

COLOR: Traditional mid-century color palettes ranged from bright hues in the 1950s to earthy colors in the 1960s, so either option works today.

DISCOVER YOUR STYLE

Create a lasting impression. Building a new home or updating the exterior of your current home is an exciting time, and discovering your style is a great way to start the process. With endless door designs and décor options, it'll help you create a cohesive look throughout your home. The result should make you fall in love with your home whenever you pull into the driveway.

CONTEMPORARY

Contemporary design is truly an ever-evolving style as it reflects today's trends. Though ever-changing, this design provides a sense of being rooted in simplicity.

DESIGN: Color blocking, geometric wall art, and high ceilings are commonplace in contemporary design. Sleek, clean lines help provide simplicity in its design.

DÉCOR: Warmth and coziness are incorporated using textured rugs and patterned pillows.

COLOR: Color palettes tend to lean more masculine, and using shades of similar hues is common.

COASTAL

Inspired by rolling waves, sandy shorelines, and cool breezes, it's no wonder coastal design is acceptable for beach-front properties and city dwellings.

DESIGN: Lighting and texture are essential elements of this style. Use natural textures like jute, cotton, and limestone to create a casual, relaxed vibe. Mixing and matching textures help create a welcoming space.

DÉCOR: Furnishing and décor are uncomplicated and uncluttered, allowing homeowners to enjoy their homes' beauty and natural light.

COLOR: A neutral color palette creates a light and airy feel in your home. Pairing with pops of ocean blues and greens helps to keep a coastal vibe flowing from one room to the next.

CRAFTSMAN

Craftsman-style homes are known for their beautiful and naturally crafted look. This style highlights superb craftsmanship, natural materials, and appealing design elements, yet it is constructed with elaborate character and warmth.

DESIGN: Uses natural materials as a design starting point, often including prominent columns, spacious covered front porches, exposed beams, stone accents, and wide eaves. Low-pitched gable roofs and decorative grids in the doors or windows help to create timeless curb appeal.

DÉCOR: This style truly stands the test of time, featuring statement fireplaces, open floor plans, built-in cabinetry, thick wood trim, and well-designed spaces for family bonding and entertaining.

COLOR: Create a charming look using earth-tone colors like browns, grays, coppery reds, tans, and greens. Try mixing and matching these hues across your design for an authentic look.

DISCOVER YOUR STYLE

Create a lasting impression. Building a new home or updating the exterior of your current home is an exciting time, and discovering your style is a great way to start the process. With endless door designs and décor options, it'll help you create a cohesive look throughout your home. The result should make you fall in love with your home whenever you pull into the driveway.

TRADITIONAL

Timeless rather than trendy, traditional style is a tried-and-true, ever-evolving look that never goes out of style.

DESIGN: The traditional design begins with the structure of the space. Sophisticated lines, ornate detailing, and deeply cut bevels provide an understated ambiance that is uniquely traditional. This design style brings a sense of distinction to a home.

DÉCOR: It's common to see patterned rugs, tufted upholsteries, framed artwork, and leather accents woven into the décor of traditional homes.

COLOR: Color palettes lean towards soft neutrals and are often paired with rich woods.

RUSTIC

Rustic style provides a handcrafted aesthetic that will infuse your home with familiar comfort and warmth. Your guests will instantly feel at home.

DESIGN: You don't have to live in a log cabin to enjoy the rustic design; you just need to add natural, organic elements. Think wide-planked wood floors, exposed beams, and a welcoming stone fireplace. It's common to mix and match the wood species throughout the design.

DÉCOR: Tarnished metals, jute rugs, burlap, and repurposed objects are perfect details in a rustic home.

COLOR: Choose hues that speak to nature's elements, such as beiges, whites, browns, and grays.

MODERN FARMHOUSE

The farmhouse design style is heart-warming, welcoming, and full of charm. This classic style has stood the test of time, evolving into today's modern farmhouse style, using fewer vintage furnishings and more contemporary design elements.

DESIGN: Create a welcoming entryway with a warm, woodgrain fiberglass or a sleek all-black door. Divided lites in both the windows and doors add dimension to the exterior design. A wide front porch ties it all together and provides a space for families to relax.

DÉCOR: A cozy, uncluttered space that incorporates texture to give depth. Get the look with wide-planked wood floors, reclaimed wood, wrought iron accents, mixed metals, and organic materials.

COLOR: High-contrast black accents and white siding are frequently used in this style. The monochromatic color scheme provides depth and dimension to a home's exterior. Go bold, choose dark siding, or add a blue or green color to your palette.

COLOR COLLECTIONS

Color has the power to transform the look of your home. It can set the mood, create space, and even boost the value of your home. Choose a color that stands out while complementing your home's color palette.

Our color collections are about expressing your personality and creating a home that truly represents those who live inside it. From bold and energetic to neutral and serene, we have a color to make your home feel like you!

FOREVER HOME

A reflection of your inner world.
Make it sacred and beautiful.

TREASURED LEGACY

Where memories are made
and cherished for years to come.

COZY COTTAGE

Home should be warm, relaxing,
full of charm and character.

STATELY RETREAT

Where luxury meets sophistication.
Timeless and full of elegance.

RETRO REVIVAL

Home is where stories of yesterday
meet the dreams of tomorrow.

CUSTOM COLORS

Leave the painting to us. Our custom color program eliminates the time-consuming task of painting the door on the job site. Your door unit will come in the color you choose directly from the production facility.

Custom colors are created using color-matching technology to get the best and most unique color possible. Whether you want to match your favorite color or a color swatch from Sherwin-Williams® inspires you, stand out with a color made just for you! Connect with your local dealer or contractor to start the color-matching process.

Choose a color that is authentically you.

NOTE: Colors swatches are as close as printing technologies allow. To request a custom color, the sample size must be 2" x 2" minimum for an accurate color match. Custom colors are available for paint finishes and clad frames. Custom colors are not available for woodgrain finishes.

WOODGRAIN FINISHES

A warm welcome. Woodgrain doors are the perfect solution for achieving the richness and beauty of wood without the maintenance. The richness of wood helps to create a stunning first impression and instant curb appeal. Colors are available on our wood textured door series, including: Norwood Steel, Timberline Textured Fiberglass, and Timbergrain Fiberglass.

TRILENNIUM® MULTI-POINT LOCK

Endura's Trilennium® Multi-Point Locking System delivers **3x the strength, 3x the security, and 3x the performance** with one multi-point locking system. Plus, with Trilennium, unmatched protection doesn't have to mean compromised style. Trilennium offers a growing portfolio of attractive handleset designs to suit any taste and budget.

- **Reliable Security:** Operating as one, all three bolts engage when the door is closed. One movement of the thumbturn or key activates all three deadbolts. When activated, each bolt becomes a deadbolt that cannot be compromised.
- **Panic Release:** A single downward turn of the interior handle releases all three deadbolts.

- **Peace of Mind:** Delivers the strength of one solid locking unit combined with the protection of three deadbolts.
- **Forgiving When Installed:** You can't control the rough opening, or what happens over time. Trilennium can correct door misalignment up to 3/16", so it works when others don't.

PANOLOCK®+ MULTI-POINT LOCK

Endura's PanoLock®+ Multi-Point Locking System is a one-of-a-kind multi-point lock that works with off-the-shelf hardware, supports a forgiving installation, and offers lasting performance, all at an affordable price point. Whether knob, lever, or thumbpress, **PanoLock+ is compatible with most hardware.**

SECURITY SIMPLIFIED

PanoLock+ allows you to enjoy the strength and security of a multi-point lock with the ease of operation of a standard handleset. Rotating the key or thumb turn activates the top and bottom tapered bolts.

CHOOSE YOUR HARDWARE

Whether knob, lever, or thumbpress, PanoLock+ is compatible with most hardware, including electronic deadbolts.

Pair with Schlage® hardware on page 130 or Baldwin® hardware on page 132.

SMOOTH OPERATION

Supports a more forgiving install and smoother everyday use with tapered bolts and adjustable roller strikes.

THE STRENGTH AND SECURITY OF A MULTI-POINT LOCK

Enjoy enhanced performance and security with three locking points.

COLOR OPTIONS

The low-maintenance powder coat finish is scratch resistant and offers better color retention than regular paint.

WHITE

TAN

BLACK

- The 1-1/4" thick, .062" heavy gauge aluminum is dent resistant and sturdy enough to provide years of beauty and performance.
- The arc-welded corners provides the strongest aluminum storm door frame available in the market. The welded construction allows for narrow rails, providing 12% more light to your entryway.
- A durable fiberglass screen offers a clean, non-glare view and won't dent like an aluminum screen.
- Heavy-duty pneumatic closers with wind chains provide smooth, easy closing with a pull-close feature to ensure proper latching.
- Unique Pocket Hinge – the nested hinge provides strength where it's needed most. As the door frame carries the weight, the hinges are not pulled from the door during operation.
- Heat-tempered safety glass provides a clear weather shield that is three times stronger than regular glass.
- Easy installation – doors can be installed as either left or right outswing.
- Available Sizes:
32" x 80"
36" x 80"

FRAME TYPES

Protect your home with durable, low-maintenance door frames that provide years of rot-free and worry-free performance. Choose from various frame types and trim profile options to complete your entry door.

DURA-FRAME™

- Primed wood jamb
- Alaskan Yellow Cypress finger jointed to the ends
- Resists moisture, rot and insects
- One-piece design, up to 12" depth

DURA-TECH FRAME

- Durable PVC bonded to the Dura-Frame™ jamb
- Paint and stain options
- Includes matching brickmold that's splined for nail-free attachment

DURA-PLAST™ FRAME

- Composite poly-fiber frame system with worry-free performance
- Paint and stain options
- Will not absorb or wick moisture and will never warp, splinter, or rot

STEEL FRAME

- Ideal for light commercial applications
- Easy installation – accommodates varying wall thicknesses and can be installed after walls and flooring are finished
- 90-minute fire rating
- White frame is paintable after installation
- Optional steel casing

CLAD FRAME

- Durable .092" thick extruded aluminum cladding
- Built on Dura-Frame™
- Powder-coated finish provides exceptional color retention
- Complete your look with trim options, designed to offer architectural aesthetics similar to wood.
